

Industrial Brass Cable Gland Type : BW

For Armoured Cables

Suitable for dry indoor conditions. For single wire armoured, plastic or rubber sheath cables. Three part armour lock. Provides mechanical cable retention and electrical continuity via armour locking.

Tested as per IEC 62444:2010

TECHNICAL DATA

Type : BW
 Design Specification : BS 6121:Part 1:2005, IEC 62444
 Gland Material : Brass
 Armour Clamping : Three Part Armour Lock
 Cable Type : Single Wire Armour (SWA)
